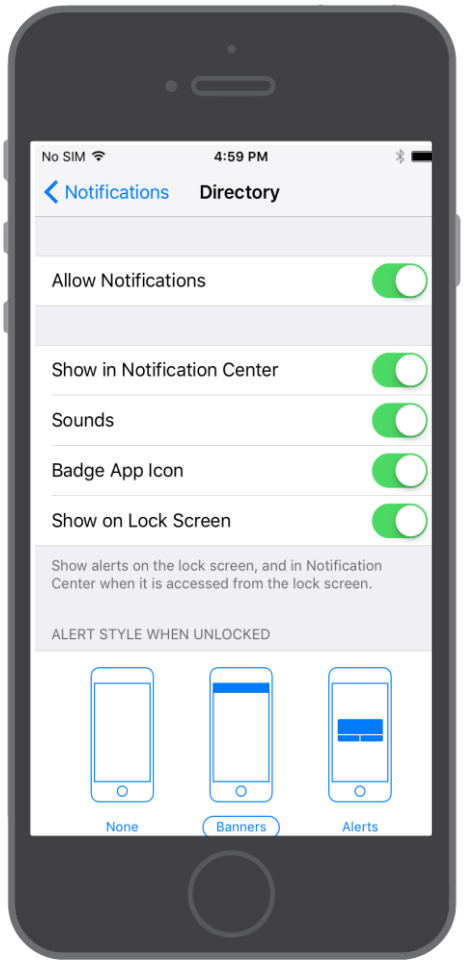
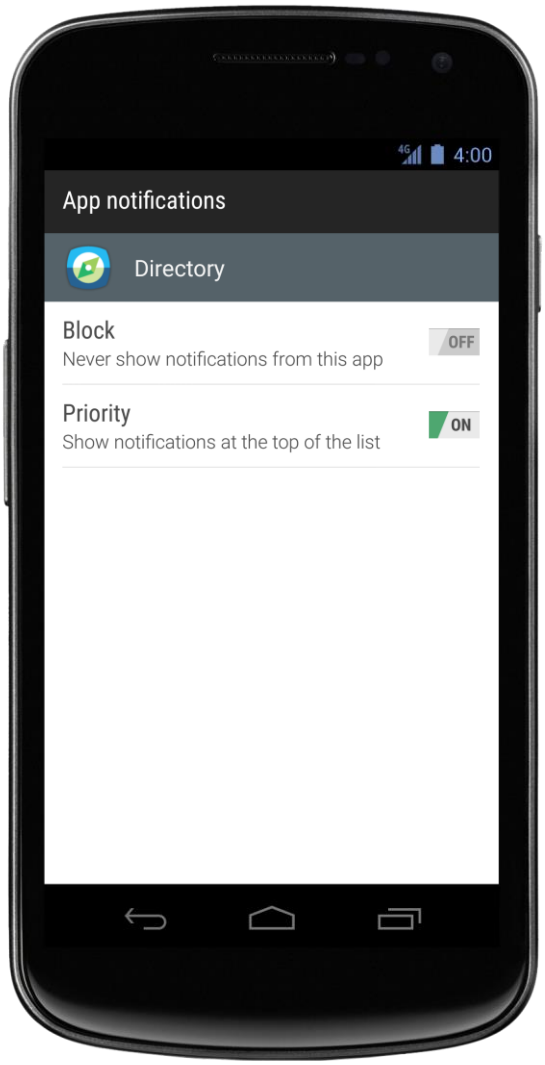
Allowing Push Notifications

Allowing Notifications on iOS



1. Access the Notifications menu. From the home screen, tap Settings, then Notifications.

2. Turn on Notifications for the app. Find the CBIE app on the list and tap its name. Switch Allow Notifications on.



On Android

Note: Not all Android phones are the same. The directions below walk you through the Android 5.0 operating system.

1. Access the Notification menu. Swipe down on the home screen, then click the gear in the top right. Tap Notifications.

2. Turn on Notifications for the CBIE App. Scroll down and tap App notifications. Find the CBIE app on the list. Switch notifications from off to on.

CBIE BCEI 2019
WINNIPEG
17-20 NOV
