C. Seminar Topics Concept

Topic I. The Cost of Inaction: Youth Participation in Environmental Change

The legacy youth will inherit from their previous generation not just wealth and technology but also the environment they live in. Youth will take the baton and continue the mission to save the world. Participants are encouraged to discuss the causes, the dangers, and the solutions of environmental change from different perspectives.

Topic II.

Build Bridges, Not Walls: The Role of Youth in Narrowing the Gap between the Rich and the Poor

Phenomenon of “the rich get richer, and the poor get poorer” is exacerbated in the world of globalization. Participants are encouraged to discuss its cause, the problems associated with it, and the solutions in aspects such as technology, education, resource redistribution, volunteer service, and policy reform.

Topic III.

The Power of the New Social Media Generation That Moves the World

Social media connects people who share the same ideas regardless of their distance and borders. It enables voices to be heard and gives the powerless a chance to defeat the powerful. Participants are encouraged to discuss real-life examples of how youth in different countries applied social media in community and public affairs participation, why they succeeded or failed, how youth can take advantage of the influence of social media to solve today's global problems, and how the resources in the cyber world and the physical world can be integrated to strengthen the power of social media.
