Towards social readiness?

Recent news about Horizon Europe

- « Positioning Health, Oceans, Aviation as well as Smart Cities, Bioeconomy, Agriculture, Raw Materials and Marie Skłodowska Curie Actions at the centre of an enhanced R&I strategic cooperation between the EU and Canada » (EU-Canada JSTCC of 18 Oct. 2022) > mostly under pillar II of Horizon Europe
- Working document for the work programme 2025
 - Example: HORIZON-CL5-2025-D5-16: Real time monitoring of regulated and non-regulated emissions for all types of vessels in order to enforce emission limits in waterfront cities (topic in collaboration with the Zero-Emission Waterborne partnership and the Cities Ocean Mission)
- Innovation Action > Activities expected to achieve TRL 6-7 by end of project
- Introduction of a “societal readiness pilot”, to test likely acceptability of projects to society at large
- “This topic requires effective contribution of the relevant SSH expertise, including the involvement of SSH experts in the consortium, to meaningfully support Societal Readiness.”
